DETAILED ACTION

Request for Reconsideration

1. Applicant's submission of a request for reconsideration was entered on September 16, 2004. Applicant's submission of an IDS on October 25, 2004 has been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-9 and 12-20 are rejected under 35 U.S.C. 102(a) as being anticipated by Online Publication: Netscreen Security Appliances (hereinafter "Netscreen").

Netscreen discloses a method and system for maintaining a status indication in a network operations center for a terminal adapter connected to a computer network, comprising: receiving a first status update message; relaying the first status update message; receiving the first status update message; and recording a status indication and recording time (see page 2, "Netscreen - 5XT"; "supports dial-backup or dual Ethernet ports for redundant Internet connections when network is uptime is business critical).

Art Unit: 3627

Claim Rejections - 35 USC § 103

4. Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Netscreen in view of Official Notice.

Regarding claims 10 and 11, Netscreen fails to explicitly disclose the type of notification.

The Examiner takes Official Notice that it is old and well known in the art to notify via email or telephone.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Netscreen with email or telephone notification as is well known in the art, because email and telephone provide quick, efficient, and readily accessible notification platforms for businesses.

Response to Arguments

5. Applicant's arguments filed September 16, 2004 have been fully considered but they are not persuasive.

Applicant's arguments are moot in view of new grounds of rejection.
